

Kyla Quilos

Diligent and committed Software Developer with an electrical engineering background eager to secure a position that allows growth in the tech industry. Acquired a customer-focused approach to problem solving and ensuring strong client relationships from prior engineering experience. Detail-oriented and loves working with a collaborative team to produce impactful websites that engage users.

Work Experience

JUN 2021 - Present

FRONT-END DEVELOPER INTERN

WunderPics, Long Beach, CA

- Coded multiple module tab designs to website homepage after user authentication, thus improving user experience
- Collaborated with the design team to implement responsive login, shopping cart, and privacy policy pages
- Utilized Cypress library to integrate automated tests for newly developed functionalities, simulating real user behavior

JUL 2020 - APR 2021

ELECTRICAL FIELD ENGINEER

Shimmick Construction Company Inc, Huntington Beach, CA

- Reviewed and created submittals containing specification check-offs, contract drawings, and datasheets to present to the resident engineer prior to installation of electrical equipment
- Managed procurement for the electrical materials necessary for the project
- Designed the wire routing and conduit systems in existing buildings by working with the contract plans and specifications
- Oversaw the electrical department's labor distribution reports that are discussed weekly
- Maintained good relationships with electrical vendors and subcontractors to get high quality work done on time

OCT 2018 - MAR 2020

ELECTRICAL ENGINEER

Edyza, Irvine, CA

- Prepared technical documentations and recorded the process of testing each sensor to keep on file
- Lead the quality control/assurance department for each sensor that is deployed to our partners
- Collaborated with the marketing team to promote the company on social media platforms such as LinkedIn and Instagram by uploading videos and photos
- Improved company's website to display all company products and information, increasing visibility to our partners
